Duration

- Duration 1-6 months

Cost

- \$5,500 per student

Location

- Parabellum International Training Centre
50 Tacoma Circuit, Canning Vale, 6155

Course Summary

- This is one of the finest qualifications for emergency response operatives (ERT's) in Australia. This qualification reflects the role of emergency response and rescue team members working in the resources and infrastructure industries. Team members who perform tasks involving a broad range of skilled applications in a wide variety of contexts, which involve some discretion and judgement in selecting equipment, services, or contingency measures. This course is designed to develop the skills of any persons wishing to excel in an Emergency Response Team (ERT) role. It is ideal for team members who working within the mining, resources, and construction industries.
- This qualification is nationally recognised and is the mining and resources industry standard, and essential for those employed or seeking employment within firefighting or emergency response and rescue fields and be part of an ERT.

Structure & Assessment Methods

The course is delivered by both theoretical and practical components and the units are taught by our expert trainers who have current and up to date experience with the fire and emergency response and rescue industry.

There is a combination of online self-paced learning and completion of assessments as well as face to face classroom theory and practical scenario activities assessments.

“We don’t just train emergency response, we create emergency responders.”
